## 160 KM Century Ride 2014 TRAINING PLAN

Your training program needs to be designed to prepare you for the demands of a 160 km ride, with the goal of finishing in 5-8 hours. Your training program consists of a number of different types of rides (which are detailed below).

It is the combination of these rides in a structured progression that will have you properly prepared for the Ride for Karen. Over time, you will need to gradually increase the duration and intensity in certain rides as you build your endurance. Ultimately you will achieve the level of fitness that you need to complete the 2014 Ride for Karen.

## Training Plan Overview: You will be striving to achieve different goals throughout your training schedule in order to be ready to successfully complete the 2014 Ride for Karen 160 km Century Ride

| March (Base) | Goal: To build base fitness |

## Before You Start Training:

Before starting a training program it is recommended that you consult your physician. It is also recommended to have your bike tuned and your position assessed by a qualified bike shop. This will help ensure that your bike is safe and reliable and that your bike position is comfortable and efficient which will minimize your chance of injury and make your long rides more enjoyable.
